View restaurants menus, attraction availability and showtimes on the HK Disneyland app

FAQs

Can I register my group at the same time?

Each reservation is limited to one ticket or membership card. Guests can also make reservations for additional tickets or membership cards for their companions by using the same contact information.

Can I make reservations on the day of my visit?

There is no specific cut-off time for each day's reservations. However, please note that a quota is set for park admission every day. Reservations are on a first come, first served basis. Guests will not be able to reserve once the respective quota pool is full.
